## Work Experience

### Edsan Transient House and Inland Resort Management System | January 2024 – Present

Full-Stack Developer

Link: [edsanbooking.com](https://edsanbooking.com)

- Full-Stack Development: Architected and developed a complete ASP.NET Core MVC application with a clean Model-View-Controller structure.
- Backend: Implemented robust backend logic using C# and Entity Framework Core, managing complex queries, migrations, and database operations in PostgreSQL.
- API Integration: Developed and secured RESTful APIs for guest management, reservations, and payments.
- Front-End: Created responsive interfaces with Razor views, HTML5, CSS3, and Bootstrap.
- Security: Implemented role-based access control, authentication, and data encryption using ASP.NET Core Identity.
- Cloud Deployment: Deployed to Microsoft Azure, handling custom domains, SSL certificates, and CI/CD pipelines.
- Logging & Error Handling: Configured centralized logging and error handling with Azure Application Insights.
- Testing & CI/CD: Automated testing and deployments using GitHub Actions, and Azure DevOps.
- Third-Party Integration: Integrated payment gateways and email services for enhanced functionality.

### ZONE Telecom Pte. LTD.

Software Engineer

Singapore

August 2018 – December 2022

- Successfully upgraded the Billing and Collection Application from PowerBuilder 12.5 to PowerBuilder Appeon 2022 R2, enabling compatibility with Windows 10 and ensuring future operational readiness.
- Maintain the Billing and Collection System that generate invoice to 45,000 clients.
- Create a new feature that will allow user to provision new customer's phone numbers.
- Enhanced the program by integrating B3 (Vendor) Call Detail Data into the Billing and Collection System.
- Maintained close communication with internal staff to understand requirements, clarify issues, and prioritize tasks.

### AIA Singapore

Software Engineer

Singapore

August 2015 - August 2018

- Implemented a feature to send financial account checks to Standard Chartered Bank and manage returned files via the Cheque Payment Gateway.
- Converted Windows Scheduler jobs for the Cheque Payment Gateway to Autosys Workload Automation.
- Assisted in migrating the Autosys Workload Automation for the Cheque Payment Gateway to IBM's Managed File Transfer.

### MYCOM Systems LLC

Software Developer

Dubai, United Arab Emirates

December 2010 – February 2015

- Support inventory and sales systems across Bahrain, Oman, Qatar, Dubai, Saudi Arabia, and Sri Lanka.
- Plan and execute development projects for new and existing applications.
- Provide user training and detailed documentation to clarify update processes.

## Education

Bow Valley College  
Software Development Diploma, April 2024

Canada

## Technical Skills

### Web Development:

- ASP.NET Core MVC: Extensive experience in building responsive, user-centric web applications with Razor views, ViewModels, and dependency injection.
- Front-End Development: Proficient in React JS, HTML5, CSS3, and Bootstrap for creating modern, responsive interfaces.
- Back-End Development: Skilled in implementing RESTful APIs, integrating with third-party services, and managing server-side logic using ASP.NET Core and C#.
- Database Management: Strong expertise in Microsoft SQL Server, PostgreSQL, and Oracle, with a focus on optimizing queries and ensuring data integrity.
- Version Control: Experienced with Git and GitHub for source control, collaborative coding, and version tracking.

### Desktop Application Development:

- C# .NET: Proficient in developing desktop applications using C# and .NET framework, with extensive experience in PowerBuilder Appeon 2022 R2.

### Additional Skills:

- API Integration: Skilled in integrating various APIs into applications, enhancing functionality and user experience.
- Testing & Quality Assurance: Conduct thorough testing and quality assurance to ensure software reliability and security.
- UX/UI Design: Adept at applying UX/UI principles to design intuitive interfaces and improve user experience using tools like Lucidchart and Whimsical.

---

## Soft Skills

- Team Collaboration: Demonstrated team player with strong problem-solving abilities and a commitment to shared success.
- Growth Mindset: Lifelong learner, consistently updating skills and knowledge to stay current with industry trends.
- Emotional Intelligence: High emotional intelligence, fostering positive team dynamics and effective communication.
